

# Geotechnical Instrumentation and Monitoring Program in the Queen and University area

Starting June 2022

**What is happening?**  
 To advance design concepts and other structural plans for the Ontario Line, Metrolinx will be establishing a Horizontal Control Network that will be utilized for the Geotechnical Instrumentation and Monitoring Program.

## Timing

- **Scheduled start:**  
June 2022
- **Scheduled completion:**  
March 2023
- **Days:**  
Monday to Saturday
- **Weekday Hours:**  
8:00am- 5:00pm
- **Weekend Hours:**  
9:00 am – 4:30 pm

## What to expect

- A three-person crew will be visiting locations along Queen, Simcoe, St. Patrick, University, Duncan and Pullan Place to establish a horizontal control network (a series of survey points) that will be utilized for the Geotechnical Instrumentation & Monitoring Program.
- Geotechnical monitoring instruments are installed in the vicinity of the station construction to monitor the ground conditions once construction is underway.
- Equipment will not be left on-site outside of work hours.
- While sidewalks will remain open there will be temporary impacts and diversions for pedestrians.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.

## The Ontario Line

-  15.6 kilometres of transit service
-  Making it faster and easier for hundreds of thousands of people to get where they need to be

-  Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
