

TRANSFORMING TRANSIT IN YOUR AREA

Information as of October 24, 2019

Temporary Lane Reductions to Pacific Mall/Steeles Avenue East Entrance

Timing: November 3, 2019

Metrolinx is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Golden Horseshoe Area. Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community.

With more frequent train service you'll have more options to get you where you need to go.

WHAT IS THE STOUFFVILLE STATIONS PROJECT?

Metrolinx is making major infrastructure improvements to the Agincourt, Milliken, and Unionville GO stations. This work includes the construction of new grade-separated rail and pedestrian bridges at the existing Steeles Avenue East at-grade rail crossing between Kennedy Road and Midland Avenue, which also includes a new road underpass on Steeles Avenue East below the railway corridor.

WHAT TO EXPECT

Starting as early as **November 3, 2019 for several days**, there will be temporary lane reductions at the Pacific Mall/Steeles Avenue East entrance, at Redlea Avenue (*see map*). These changes are required to perform work on a sanitary sewer line underneath Steeles Avenue East. Once the sanitary sewer line works are completed, all lanes will be restored.

- **Work will be completed in two phases to maintain access and minimize impacts.** Crews will close the west lanes first (*east lanes will remain open*) for three days. Crews will then close the east lanes (*west lanes will remain open*) for three days.
- **One entrance and one exit lane will be maintained at all times for vehicles.** Pedestrian access will be maintained. All other access points to Pacific Mall will remain open.
- Traffic control personnel and/or a Paid Duty Officer will be present while this work takes place. For your safety, please use caution when travelling around construction zones and obey posted signs.
