

Guelph Central GO Station South Platform Construction

The expansion of GO Train service along the Kitchener GO corridor will transform the line into a more frequent transit experience - with fast and convenient train service that runs outside the rush hour.

Metrolinx has been replacing, repairing, and upgrading infrastructure along the Kitchener GO Line in support of GO Expansion. The next phase of this work includes a new south platform and a north platform extension at Guelph GO Station.

WHAT THIS MEANS FOR YOU

- Construction crews will begin to set up equipment on the south side of the tracks the week of May 2.
- Most of the work will take place on weekdays between 7 a.m. to 5 p.m. Any work required outside of these hours will be communicated in advance.
- The parking spaces across from 111 Farquhar St. on the south side of the tracks will be permanently removed to accommodate the new platform.
- A construction laydown area will be established in the north parking lot off Neeve St. - parking spaces will be inaccessible for the duration of construction starting May 16.
- Community members can expect to hear noise from heavy machinery and equipment. The use of back-up beepers, a vital safety measure, will be limited to essential work only.
- Construction of the south platform is expected to be completed by early 2024.

QUESTIONS

We have a dedicated Community Relations team available to answer your questions by email, Monday - Friday, 8:30 a.m. - 4:30 p.m. at GuelphWellington@metrolinx.com.
